Washington Did great things in his life and wrote about them in ...By reviewinatorDu Bois book is weak as far as details - He just tries to get poetic with his feelings about the situation without explaining the details about the situation. Washington Did great things in his life and wrote about them in a way that kept me interested. He was definitely a great man no matter what color his skin was. Douglas spent his childhood and his young adult years in slavery and pulled no punches when he wrote about it years later. This was the most moving and powerful book of the three - wow!4 of 4 people found the following review helpful. I love this bookBy Venus BelBooker T Washington, W.E.B.DuBois and Fredrerick Douglass are important historical figures in the black slavery experience. To me they are the Fathers of black American freedom and liberty from slavery. One cannot understand the personal and individual experiences that former slaves went through to gain their freedom until they come into contact with the lives of these former slaves.I highly recommend this book. You get three great books for the price of one, and the wealth of knowlege in this book would change your life forever, it has changed mine.0 of 0 people found the following review helpful. Essential American ReadBy Ms Persnickety4 stars given due to small print, but the read is a 5 star rating.

This essential collection comprises a trio of the most influential African-American writings of the nineteenth and twentieth centuries. Exploring such themes as slavery and its abolition, the struggle for equality, and the impassioned rise from bondage to international recognition, each landmark book is a founding work in the civil rights literature of America.Included here are Booker T. Washington's Up From Slavery, W. E. B.Du Bois's The Souls of Black Folk, and Frederick Douglass's Narrative of the Life of Frederick Douglass. These stirring accounts, significant testaments to our nation's past together in one volume, belong on the bookshelves of everyone interested in African-American history.
