Ellen Carol DuBois, Lynn Dumenil : Through Women's Eyes: An American History with Documents before purchasing it in order to gage whether or not it would be worth my time, and all praised Through Women's Eyes: An American History with Documents:

The first textbook for the survey course in American womens history to combine a compelling narrative with a wide array of written and visual primary sources, Through Womens Eyes: An American History is also the first to integrate womens history into U.S. history while ensuring a balanced sense of the broad diversity of American women. Modeling for students how historians gather and interpret evidence, DuBois and Dumenil provide a textbook rooted in recent scholarship yet accessible to all introductory students.
