**From Bruno Gmunder Group : Titan Men** before purchasing it in order to gage whether or not it would be worth my time, and all praised Titan Men:

1 of 1 people found the following review helpful. Meh. Could've been better. By Baby Igz TitanMen have great models in their adult films but that doesn't show in this book. I went with this one instead of the Kristen Bjorn book and was disappointed to the degree that I put it up for sale within the first week. There's better books out there. 0 of 0 people found the following review helpful. Two Stars By Raydon't waste your money, the men are not that hot 0 of 0 people found the following review helpful. Unbelievably Sexy! By Richard Mahone Treat yourself to this book, you won't be disappointed. The men are extraordinarily handsome with the right stuff in all the right places. As the other reviewer stated, don't expect any scrawny, chicken-legged twinks in this. Full of well-endowed beefcakes with hairy chests to the max! Enjoy!

This opulent photo album seeps in masculinity so that the connoisseur of genuine men really receives money for value. With its male photos, this album takes a completely different direction: muscular, hairy men, void of any caprice, natural and unbelievably erotic. "Titan Men" shows the most erotic photos that were created for "Titan Media". This is a photo book that will take the connoisseur of pithy masculine photos by storm.

About the AuthorThe Californian film label Titan Media has advanced over recent years to become one of the market leaders in the American erotica branch. Titan has a reputation as a gay porn company that has sexualized middle aged men, hairy men, and men of all colors.
