**Eva H. Dodsworth, Andrew Nicholson : Using Google Earth in Libraries: A Practical Guide for Librarians (Practical Guides for Librarians)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Using Google Earth in Libraries: A Practical Guide for Librarians (Practical Guides for Librarians):

Using Google Earth in Libraries: A Practical Guide for Librarians is for public, school, academic, and special libraries serving from the elementary level through adult levels. Although articles have been written about specific subjects and specific library projects, this is the first published that offer a one-stop-shop for utilizing this online product for library-related purposes. Librarians reading this book will gain the Google Earth skills required to be able to not only use it

themselves, but also teach others in how to use this online technology.

About the Author Eva (Hobot) Dodsworth is the Geospatial Data Services Librarian at the University of Waterloo library where she specializes in teaching GIS and map-related content to the university community. Eva's interests include historical cartographic research, teaching geoweb applications and historical GIS. Eva is also a part-time online instructor for a number of library schools, and continuing education organizations where she teaches the use of GIS technology in libraries. Eva has also written *Getting Started with GIS : A LITA Guide*, as well as has co-written *Discovering and Using Historical Geographic Resources on the Web*. Andrew Nicholson is the GIS/Data Librarian at the University of Toronto Mississauga. In this role, he collaborates closely with teaching faculty to develop course assignments based around map-related research questions, geospatial literacy, and experiential learning. Almost from the time of Google Earth's launch in 2005, Andrew has been promoting its use in libraries and in the classroom as a research and teaching tool, overseeing its application in courses across the disciplines including Anthropology, Biology, Classical Studies, Forensic Science, Geography, Language Studies, among many others.
